

Food, drinks & hospitality.

A world where knowledge moves every day. How do you move with it?

CULIQUIZ

The knowledge infrastructure for your business.

The challenge

The problem is not motivation. The problem is that knowledge does not structurally move with the work. Behaviour does not change structurally, and no one owns that gap.

On the floor

- ✓ New employees start without experience
- ✓ Mistakes due to lack of knowledge
- ✓ Managers keep correcting instead of leading
- ✓ New knowledge never reaches the floor
- ✓ Staff turnover in hospitality exceeds 40%; knowledge leaves faster than you can replace it

Suppliers

- ✓ Large portfolio
- ✓ No direct contact with the end user
- ✓ Training is occasional
- ✓ Product knowledge doesn't land
- ✓ Lack of alignment between marketing and sales
- ✓ Internal adoption is challenging
- ✓ Fragmented ownership
- ✓ Knowledge disappears with turnover

The result

- ✓ Missed revenue
- ✓ Lower sell-out
- ✓ Negative reviews
- ✓ Erosion of brand value

The missing infrastructure

Every sector has its operational backbone.

Hotels

PMS

Restaurants

POS

Marketing

CRM

Knowledge & Behaviour

?

For knowledge and behaviour in food, drinks & hospitality, there is no system. Not even for trade shows.

- ✓ Knowledge is fragmented
- ✓ Training is occasional
- ✓ Campaigns are temporary
- ✓ Data comes too late

What Duolingo did for language is missing from our industry. 500 million people did not learn a language through a course, but through two minutes a day.

Daily micro-moments that change behaviour.

Behaviour is built through rhythm. Not through a one-off training. That is what we are building.

I hear
and I forget.

I see
and I remember.

I do
and I understand.

What do we deliver?

Not an one-off training, but rhythm.
And rhythm builds culture.

3-Minute Micro-Learning

Short. Playable. Contextual. 3 minutes a day, playable on your phone, fits in waiting time or a break, builds knowledge without training days. Addictively fun.

Themes & team battles

Short, focused learning sprints around specific topics and soft skills. Competitions between departments with leaderboards to boost engagement and fun.

Knowledge & Behaviour

The content of the games is an interplay between knowledge, behaviour & fun. Knowledge of the menu and upsell opportunities, combined with content about real situations. Recognisable and immediately applicable.

200+ Touchpoints per year

More engagement, stronger product knowledge and greater service confidence. All measurable, so that per employee and per staffing agency, quality is transparent.

From menu to floor knowledge

Upload your menu. CuliQuiz generates relevant games and insights for your business.

For Horeca

Games in the app

Custom quiz questions based on your menu

Upsell opportunities

Combinations, recommendations and sales opportunities

Knowledge

Ingredients, preparations and stories

For Marketing / Sales

Insights

Knowledge level per employee and per location

Sell-out intelligence

Expectation vs reality where it matters

Concepttrends

Growing dishes and concepts in your segment

Onboarding & HACCP

Insight without being present

day 1

the learning journey begins

Onboarding

- ✓ Menu knowledge, house standards & behaviour
- ✓ 3 min per day on the phone
- ✓ Progress per employee visible

100%

insight per location

Certificates

- ✓ Completed with a certificate
- ✓ Traceable per employee, per location
- ✓ Also for mandatory training

1x

per day, not per year

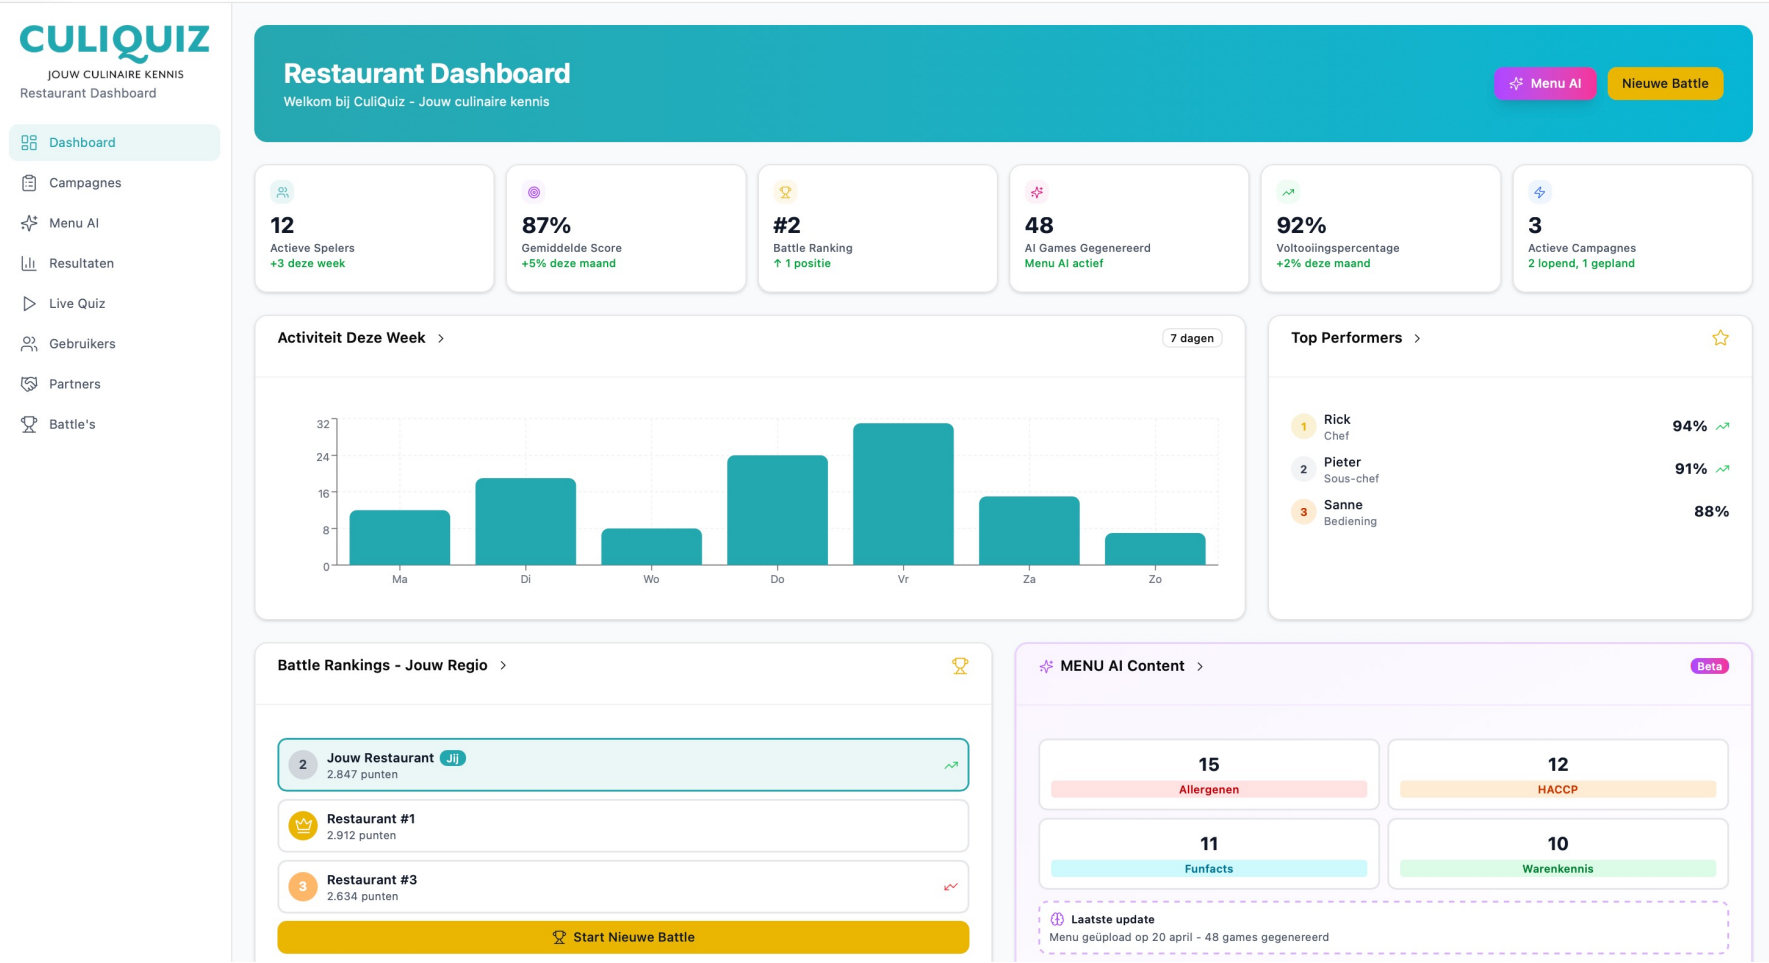

HACCP

- ✓ Legally required & demonstrable
- ✓ Part of the daily routine
- ✓ Who is certified, visible at a glance

Dashboard

Insight in level of knowledge

Who has completed the onboarding?

Who has completed the Campgane game

Insight into scores on soft skill campaigns

For brands

Customers

Knowledge becomes visible on the floor

Access to all CuliQuiz campaigns, including your brand

Insight into usage, progress and impact

Competition and activation that trigger behavior

Sales

Adoption happens in the conversation

Sales uses what works

Makes conversations easier and prevents mistakes

Saves time and builds confidence with the customer

Marketing

Campaigns that become visible in behavior

Not built for reach, but for use

Continuous feedback loop from customer and sales

Insights from the end user

Return on Engagement

Turning learning into measurable impact.

Knowledge fades

70% is forgotten within 48 hours. CuliQuiz breaks that cycle with daily micro-interventions.

Real situations, not theory

70% real scenarios: upsell opportunity, busy service, hesitant guest. Immediately applicable.

Fast onboarding

New employees are faster up to speed. From Starter to independent in half the time.

Competition works

Leaderboards activate teams. Who is best prepared? They can see it themselves.

Always at hand

Mobile, 3 minutes a day. Ready for the shift, even without a training session.

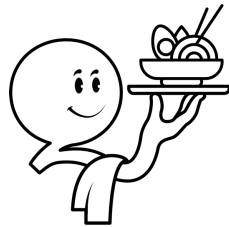

Data

Insight into knowledge level per employee, per location. No assumptions; evidence.
